ROMALDO WELL NOTICE

RESCHEDULED WELL MAINTENANCE DAY

The well maintenance that was scheduled for last weekend had to be rescheduled due to rain. We'll try to do the work next Saturday.

On Saturday, February 1, 1997 the Romaldo Water System will be shut down from 10:00 A.M. - 5:00 P.M. for maintenance. The main storage tank will be drained and sediment which has built up in the bottom of the tank will be flushed out and the system will be re-chlorinated.

Representatives of the County Health Department feel that the chlorine we have added to the system in the past few months doesn't penetrate the sediment in the bottom of the tank, which may be the reason that our water system continues to fail bacteriological testing.

Please help with this project if you can. Just show up at the well at 10:00 A.M.

If you need more information call Craig Jennings at 683-4920.
