Re: Water shut-off

The Santa Barbara County Health Services has again tested the water in our well and discovered that it is unsatisfactory. Therefore, we will begin chlorinating the well on Sunday night, September 25th at 7:00 p.m. The well pump will be turned off at 7:00 and the chlorine will be allowed to remain in the well and storage tanks overnight without pumping. The pump will be turned back on by 7:00 a.m. Monday morning.

Please prepare for this water shut-off by taking showers and washing dishes and clothes before 7:00 p.m. Sunday night. When the water comes back on it will be suitable for washing, but do not drink the water until the chlorine smell has gone away.

If you have any questions, please contact me at 683-4920.
