Re: Water shut-off

The Santa Barbara County Health Services has tested the water in our well and discovered that it is unsatisfactory. Therefore, we will begin chlorinating the well on Saturday night, February 25th at 7:00 p.m. The well pump will be turned off at 7:00 and the chlorine will be allowed to remain in the well and storage tanks overnight without pumping. The pump will be turned back on by 7:00 a.m. Sunday morning.

Please prepare for this water shut-off by taking showers and washing dishes and clothes before 7:00 p.m. Saturday night. When the water comes back on it will be suitable for washing, but do not drink the water until the chlorine smell has gone away.

If you have any questions, please contact me at 683-4920.
